## PROFESSIONAL SUMMARY

---

Motivated and hard-working IT student with strong skills in Java, SQL, and web technologies. Passionate about building simple, efficient applications and solving real-world problems. Quick learner with good problem-solving abilities, eager to gain experience in software development and full-stack projects

## TECHNICAL SKILLS

---

**Programming:** Java, MySql

**Frameworks & APIs:** Spring Boot ,REST API

**Database:** MYSQL

**Tools:** Git, GitHub, PostMan, VS code, IntelliJ Idea

## PROJECTS

---

### Smart Health Analysis Application

**Technologies :** Java, Spring Boot, React, MySQL, REST APIs, OpenAI API, OpenStreetMap API

- Developed a full-stack health analysis application using **React**, **Spring Boot**, and **MySQL** with a scalable MVC architecture.
- Integrated **AI-powered symptom analysis** in the Spring Boot backend using the **OpenAI API**, exposing the results through **REST APIs** to identify possible health issues and provide recommendations.
- Integrated **HTML5 Geolocation** with the **OpenStreetMap API** to display nearby hospitals and pharmacies with real-time location services.

### Smart Transit Manager

**Technologies :** PHP, HTML, CSS, JS, MySQL

- Developed a real-time Bus Tracking System using PHP, MySQL, Mobile GPS, and OpenStreetMap to monitor live bus locations.
- Implemented GPS-based live location updates and route tracking through REST APIs for real-time bus monitoring.
- **Improved transportation efficiency by enabling real-time bus monitoring and route management.**

## EDUCATION

---

### B.Tech - Information Technology

2027

#### Erode Sengunthar Engineering College

- Academic focus on Software Development, Web Development, Database Management, Problem Solving
- CGPA : 8.1

### HSC

2023

#### Government Higher Secondary School-Tirupur

- **Percentage : 76.5**

## CO-CURRICULAR ACTIVITIES

---

### Google Developer Groups (Hackathon)

- Participated in **Google Developer Groups Hackathon** at **H2Silks High School**, collaborating on **innovative tech projects** and enhancing **coding and problem-solving skills**.

### Sinthan'AI hackthon

- Developed an **AI-based document extraction system** using **OCR**, **Gemini AI**, and **JSON** during **Sinhthan'AI 2K26 Hackathon**, automating text extraction and backend data processing.
